

Dear Valued Supplier,
 尊敬的供应商:

Jabil is transitioning their eProcurement solution to Coupa in December 2017. As one of our valued suppliers, we would like to schedule an hour call with your team to review your capabilities around punch-out catalogs and cXML capabilities.

捷普正在对电子采购系统更换，新的电子采购系统 Coupa 将于 2017 年 12 月启用。作为捷普重要的供应商合作伙伴，我们希望和贵公司安排一个 1 小时的电话会议，以了解贵公司关于 punch-out 目录及 cXML 的技术能力。

Please find the following [link](#)

(https://success.coupa.com/Suppliers/For_Customers/Toolkit/Manage_Catalogs/Punchout_Catalogs) as an overview to Coupa’s punch-out capabilities for your review if desired, but what we really need are the following credentials (test and production) in order to enable Jabil to punch-out to your website.

请点击以下[链接](#)

(https://success.coupa.com/Suppliers/For_Customers/Toolkit/Manage_Catalogs/Punchout_Catalogs), 这个链接是供贵公司参考的，关于 Coupa 系统对于设置 punch-out 的技术需求。我们需要贵公司提供以下授权凭证（测试环境和生产环境），让捷普可以通过 punch-out 的方式与贵公司网站进行连接。

Punch-Out Credentials	TEST	PRODUCTION
Punch-out		
Sender Domain		
Sender Identity		
Supplier Domain		
Supplier Identity		
Shared Secret		
Protocol		

Punch-Out 授权凭证	测试环境	生产环境
Punch-out		
Sender Domain (发件人域)		
Sender Identity (发件人身份)		
Supplier Domain (供应商域)		
Supplier Identity (供应商身份)		
Shared Secret (共享密钥)		
Protocol (数据传输协议)		

In addition to the above credentials, we will need the following:

除了以上提到的授权凭证信息，我们还需要以下信息：

- List of all unit of measures used in punch-out catalog
- List of all UNSPSC codes used in punch-out catalog
- 在 Punch-out 目录产品中使用的计量单位列表

2. 在 Punch-out 目录产品中使用的 UNSPSC（联合国标准产品与服务代码）列表

We will need the following credentials (test and production) in order to enable cXML ordering and invoicing.

我们需要贵公司提供以下授权凭证（测试环境和生产环境），以使用 cXML 的方式进行订购和发票开具。

cXML PO	TEST	PRODUCTION
PO URL		
Sender Domain		
Sender Identity		
Supplier Domain		
Supplier Identity		
Shared Secret		
Protocol		
PO Cancel / Changes		
cXML Invoicing		
Supplier Domain		
Supplier Identity		
Buyer Domain		
Buyer Identity		
Shared Secret		
Contact:		
Contact Email:		

**Please note Coupa requires all FROM credentials to match SENDER credentials at this time.*

cXML 采购订单	测试环境	生产环境
PO URL (采购订单 URL)		
Sender Domain (发件人域)		
Sender Identity (发件人身份)		
Supplier Domain (供应商域)		
Supplier Identity (供应商身份)		
Shared Secret (共享密钥)		
Protocol (数据传输协议)		
PO Cancel / Changes (采购订单取消/修改)		
cXML 发票		
Supplier Domain (供应商域)		

Supplier Identity (供应商身份)		
Buyer Domain (买家域)		
Buyer Identity (买家身份)		
Shared Secret (共享密匙)		
联系人:		
电子邮件:		

*请注意, Coupa 要求所有的“来自(From)”凭证与“发送(Sender)”凭证相吻合。

A list of sample cXML schemas can be found here:

<https://www.coupa.com/success/inv-cxml>

以下链接为 cXML 架构样例:

<https://www.coupa.com/success/inv-cxml>

A list of all IP addresses to be whitelisted can be found here:

<https://coupadocs.atlassian.net/wiki/display/integrate/US+IP+Addresses>

以下列表为所有白名单的 IP 地址:

<https://coupadocs.atlassian.net/wiki/display/integrate/US+IP+Addresses>

Our test URL for invoicing is as follows:

<https://jabil-test.coupahost.com/cxml/invoices>

Our production URL is as follows:

<https://jabil.coupahost.com/cxml/invoices>

以下为捷普的发票测试环境链接:

<https://jabil-test.coupahost.com/cxml/invoices>

以下为捷普的发票生产环境链接:

<https://jabil.coupahost.com/cxml/invoices>

Please let us know of any questions or concerns – we look forward to working together!

如果贵公司有任何的问题或疑虑, 请随时与我们进行联系和沟通。

我们期待与贵公司的持续合作!

Thank you!

谢谢!
