JABIL | SUPPLY CHAIN TRANSFORMATION

E2OPEN - GLO - QUICK GUIDE

This guide explains how to share shipment tracking data for bookings made outside the Global Logistics Orchestration (GLO) system.

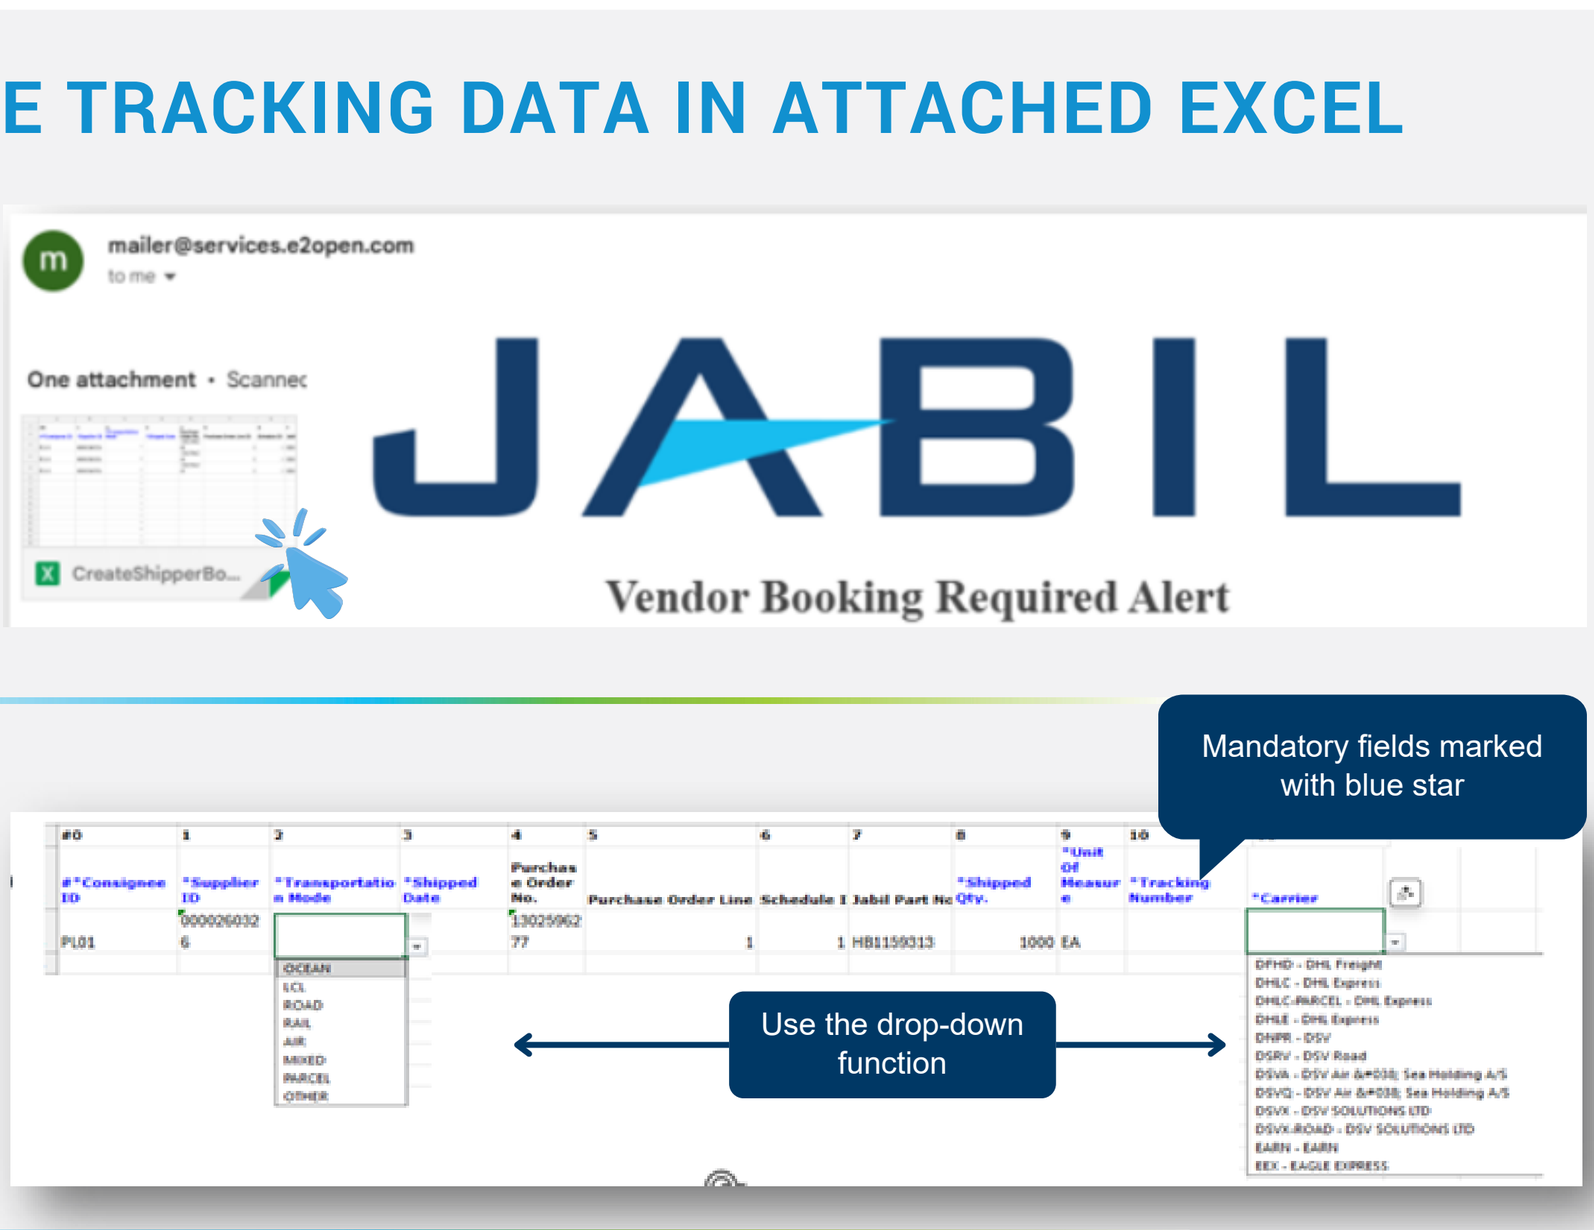
HOW TO SHARE TRACKING DATA IN ATTACHED EXCEL

1 OPEN PO LIST

Click the Excel attachment icon in the received email to open PO details

2 SHARE DETAILS

Provide tracking details information in the file



3 PARCEL DATA

Important Validation

#0	1	2	3	4	5	6	7	8	9	10	11
#*Consignee ID	*Supplier ID	*Transportation Mode	*Shipped Date	Purchase Order No.	Purchase Order Line	Schedule I	Jabil Part No	*Shipped Qty.	*Unit Of Measure	*Tracking Number	*Carrier
PL01	000026032 6	PARCEL		13025962 77	1	1	HB1159313	1000	EA		DHLC-PARCEL - DHL Express
											UPSN-PARCEL - UNITED PARCEL SERVICE INC.
											FDE-PARCEL - FEDEX CORPORATION

Rules: For Transport Mode labeled **PARCEL**, only the following options are allowed: **FDE-PARCEL, DHLS-PARCEL, or UPSN-PARCEL**; otherwise, the system will display an error notification

4 NEXT STEPS

Transport Order geneartion by system

After successful data sharing, the system generates Transport Order and Transport Unit objects in GLO. It then receives in-transit milestone information and predicted arrival data, which will be automatically written back to Jabil's ERP system.
No further action is required from you!
